

# DESIGNJET 111 PRINTER WITH ROLL \$895.00

The most affordable HP large-format printer

TECH 2000, INC.

## Now you, too, can afford HP large-format printing

Always wish you had the tools to succeed in and out of school? HP can help. With this affordable, cost-effective large-format printer, you can print oversized projects up to D-size in the comfort of your home office—and save money!

- HP large-format printing is truly affordable. It won't cost a lot of money to buy the HP Designjet 111 Printer with Roll, and HP supplies and printing materials ensure cost-effective operation. Produce class posters and presentations for less than a \$1.<sup>1</sup>
- Don't waste your money printing projects or jobs at a reprohouse. This HP printer is truly affordable and gives you the freedom to print in your home office. Now you don't have to wait, pay more, or hope for the best—because you're in control.
- Impress professors and clients alike with a compact, all-purpose printer that does it all. Confidently take on any assignment—the HP Designjet 111 Printer with Roll lets you print oversized posters, drawings, or presentations up to D-size.

## The most compact HP large-format printer

So easy and convenient, this HP Designjet printer fits perfectly in any home office. Produce projects and jobs quickly and easily with right-click printing. It's also durable and—at only 3.3 ft. wide—will fit just about anywhere you need it to.

- Leave new clients and tough professors with a strong, lasting impression. Deliver drawings with sharp, fine detail or posters and presentations with pure, vibrant colors. Original HP inks let you express your design vision down to the slightest detail.

- The smallest large-format printer on the market,<sup>2</sup> the HP Designjet 111 Printer with Roll fits almost any environment. The space-saving design delivers a reduced footprint at only 3.3 ft wide, making it perfect for the desktop in your home office.
- When you need to meet a deadline, you don't want to worry about changing a cartridge or fixing a jam. Fortunately the HP Designjet 111 Printer with Roll delivers easy, dependable, and robust operation that you can really count on.

## Innovative printing with HP Instant Printing

Take advantage of a large-format printing solution that does a lot and makes you look good. Use HP inks and media and produce D-sized prints of the highest quality. And save valuable study and work time with convenient media handling.

- Accommodate demanding jobs, assignments with a device that's easy, convenient, and saves you a lot of time. Meet deadlines and avoid all nighters—with right-click printing, print any file without opening an application. Work with multiple files at once.
- Take advantage of this compact printing solution from HP. Meet job size requirements and print out all of your own projects with one reliable printer that delivers the professional quality you expect—and your instructors and clients demand.
- Finish your documents to exact specification with easy, convenient media handling.
- Don't have time to deal with paper jams? Look to HP media—for that critical presentation, use photo papers that add the "wow" factor; for affordable, everyday printing use bond and coated papers. Take it to the next level with ColorPRO papers.

<sup>1</sup> Figures may vary from country to country depending on local ink pricing.

<sup>2</sup> Measuring only 3.2 square feet, the HP Designjet 111 Printer with Roll is the smallest large-format printer on the market.

# HP Designjet 130 Printer series \$1,190.00/\$1,381.00

Printers for creative professionals—the affordable HP Designjet 130 multi-format printing systems create fade-resistant, photo-quality images with consistent colors for professional photos, prints and proofs.

## Color images that last

- **Fade-resistant, photo-quality images.** Proprietary dye-based HP Vivera inks are carefully engineered to work flawlessly with all parts of the printing systems so you achieve rich, vibrant color and extraordinary photo image quality with exceptional fade-resistance.<sup>1</sup> Graphic designers and professional photographers can rest assured that the images they create will maintain their impact.
- **Rich color depth and minimal dot visibility.** The six-color HP writing system delivers a wide range of colors, deeper blacks, continuous tones and superior gloss uniformity. A four picoliter ink drop size maintains fine detail reproductions, especially in dark areas, and smooth tonal transitions.

## Reliable color

- **See reliable, consistent color from print to print.** The HP Designjet 130 Printer series features automatic closed-loop color calibration to provide consistent color, print to print and printer to printer.
- **Full color workflow support.** Optimized Macintosh and Windows® drivers provide key features for creative professionals, including RGB ICC profiles and full Apple ColorSync support. Optional Adobe® PostScript® 3™ software RIP provides robust color management and proofing options for the CMYK workflow.
- **Making professional color results simpler.** HP's free on-line knowledge center provides illustrated step-by-step instructions specific to your application, computer and workflow. And HP's custom color profiling service provides high-quality ICC media profiles for professionals whose work demands superior color accuracy.

## Postcards to posters

- **Ideas big and small—no more cutting and pasting.** The standard tray holds up to 70 sheets as small as a postcard or as big as a poster (18 x 24 in/457 x 610 mm). Extra-wide front and rear paths allow oversize output up to 24 x 64 in (625 x 1625 mm); standard roll feed supports printing up to 24 in x 50 ft (610 mm x 15 m) and allows you to switch between loaded media options without intervention.
- **Media that shows off your ideas.** The HP Designjet 130 Printer series can handle media weights up to 80 lb (300 g/m<sup>2</sup>), as well as thick or rigid media up to 15 mil. Choose from a variety of media finishes, including gloss, satin and matte.

## Time to design

- **See reliable, consistent color from print to print.** Print at speeds up to 4 minutes per page (mpp) for B (A3) size and up to 12 mpp for an D (A1) size color image in Normal mode, with fast color stability. Proofs and prints can be reviewed and approved in real time.
- **More time creating.** In-house printing for oversize output eliminates delays and shortens project timelines. Reliable, modular HP ink cartridges and printheads require minimal user intervention—further enhancing cost-effectiveness and efficiency.

<sup>1</sup>Wilhelm Imaging Research, Inc. concluded that prints made with HP No. 85 ink cartridges and HP Premium Plus Photo papers may be displayed indoors under glass for 82 years before noticeable fading and staining occur. (see [www.wilhelm-research.com](http://www.wilhelm-research.com) for details).

WHAT DO YOU HAVE TO SAY?

1. LCD printer status indicator for ink supply maintenance and print message alerts.

2. Standard media tray handles media up to 18 x 24 inches (457 x 610 mm) and can accommodate up to 70 sheets.

3. Front bypass slot accommodates cut-sheet media up to 24 inches (610 mm) wide.

4. Small footprint allows placement of printer on tabletop or in common work area.

5. USB and parallel connections plus network capability (standard on 130nr) ensure easy system integration.

6. Rear bypass slot handles heavy and rigid media of weights up to 80 lb (300 g/m<sup>2</sup>).

7. Standard roll feed (optional on the HP Designjet 130) feeds rolls up to 24 inches (610 mm) wide.

Internal color sensor for color consistency

Fade-resistant inks with 4 pl drop size for fade-resistant, photo-quality images

Modular ink system with six independently replaceable ink cartridges allows you to replace only the ink colors you need

As a creative professional, you need more than reliability, performance and value. Your world is all about color. That's why HP has implemented technologies and solutions that deliver the color quality, consistency and control you need for a superior color experience.

## Color technology by HP

### Inks and media deliver fade resistance and stability

New, dye-based inks, combined together with HP papers, produce images that stabilize in minutes vs. hours and last for years. HP inks, media and printers are designed together for results that do justice to your ideas.

### HP Designjet 130 Printer series

(using HP Proofing Semi-gloss Paper)

### HP color layering technology

Like artists creating new colors by mixing the standard paints on their palettes, multi-layering technology uses the basic CMYKcm palette to achieve a much broader range of printable colors.

By layering ultra small (4 pl) drops within a single dot, HP Designjet 130 printers produce smoother gradations between tones for virtually grain-free images.

### Automatic color calibration

The automatic closed-loop color (CLC) calibration process enables consistent and accurate color reproduction.

The CLC process is based on measuring, via a color sensor, reflected energy from primary color tiles that are illuminated with a narrow-band light source. The process works in much the same way as a classical densitometer. The printer generates a target, scans the pattern and adjusts based on the results.

## Color solutions for your workflow

RGB or CMYK. Printing or proofing. Pleasing color or accurate color. With the HP Designjet 130 printing system, you can choose the solution that best fits your needs, your workflow and your environment.

### HP Designjet 130 drivers

Optimized Mac and Windows drivers deliver outstanding color output for photographers or designers printing images in an RGB workflow. Support for RGB ICC profiles means you have the choice of managing color in the applications or via ICM profile or ColorSync tools.

The drivers also allow you to balance color channels individually when you need one last tweak.

### EFI Designer Edition RIP for HP

The EFI Designer Edition RIP, tailored for HP printers offers a powerful, yet cost-effective digital proofing system that allows full control over digital proofing needs and saves hassle, time and money. Together, EFI and HP enable designers, photographers and other creative professional to easily generate proof quality prints with sharp detail, color accuracy and smooth tonal transitions.

### Third-party RIPs

HP has worked with virtually all the leading RIP vendors in digital photography, large-format printing and pre-press proofing fields to ensure you can choose the solution that best matches your color workflow.

# HP Designjet 510 Printer series \$2,095.00/\$3,195.00

HP's most affordable standalone printer for small studios that print large-format technical documents in-house.

## Conveniently print technical drawings

Assume greater control over large-format CAD printing when you bring it in-house.

- Conveniently print CAD documents with print speeds up to 55 seconds for D/A1-sized documents.
- HP Instant Printing—quickly print your HP-GL/2 and PLT files with the simple click of a button.
- Easily share this large-format Designjet among multiple users with optional network capability.

## Reliable performance, high line quality

Impress clients with a four-color, high resolution (2400 x 1200 optimized dpi) printing system that delivers fine line quality and high accuracy. It's compatible with the latest applications and operating systems, offers HP-GL/2 support, and comes with 160 MB of memory.

- See high-quality output for technical CAD drawings—sharp detail, accurate lines, superior resolution—with HP-GL/2 in-printer processing technology.
- Process complex files with great ease thanks to 160 MB of memory.
- Based on the very reliable and best-selling HP Designjet 500 Printer series.

## In-house, at the right price

HP makes it easy and affordable for small studios to produce high-quality technical CAD prints in-house.

Save the expense, hassle, and time it takes to outsource large-format prints and start doing it yourself.

- Get high quality, high reliability at an affordable price.
- A choice of 28-ml and 69-ml HP color ink cartridges enables cost-effective printing matched to your needs.
- Separate ink cartridges and printheads at a low price and efficient servicing routines without any need to replace maintenance tanks keep running costs down.

# DESIGNJET T1200

PRINTER SERIES \$5,790.00-\$500.00/\$6,990.00-\$400.00

Two printers in 1 for CAD/GIS medium workgroups<sup>1)</sup>

TECH 2000, INC.

### Do more in less time—fast setup, printing, sharing

- Get the job done quickly without sacrificing quality thanks to this printer's fast (Economode) print setting—2 D/A1-sized prints per minute.
- Experience continuous printing with reliable HP 300-ml matte black ink cartridges, a convenient front-loading top roll, and media length tracking.
- Save time and paper with 2 online rolls with smart switching.
- Print batch HP-GL/2, DWF, PDF, JPEG, TIFF, and MS Office 2007 (Word, Excel, PowerPoint) files easily—without opening any application—thanks to the free HP Instant Printing Utility and the embedded Web server.
- Medium-sized teams can easily share this printer thanks to its built-in network card.

### Small details increase your power to communicate

- Achieve rich, dark blacks and fine detailed lines with HP Vivera inks, including 2 HP Vivera blacks and a gray ink in this 6-ink printing system.
- Produce exacting detail with 0.0008 inch (0.02 mm) minimum line width,<sup>2)</sup> and highly accurate drawings with 0.1% line accuracy.
- Easily create stunning large-format posters that convey your message loud and clear with the optional Serif PosterDesigner Pro for HP.<sup>3)</sup>
- Transform your everyday printing with 2 HP media innovations—new and improved HP

bond papers with ColorPRO Technology and HP Recycled Bond Paper, made of 100% recycled base paper.

- Optimize blueprints—use this printer's new printing mode for generic natural tracing paper.

### Print confidently with a reliable, secure solution

- A busy network is not a problem anymore—thanks to 32 GB of memory for file processing and reliable In-printer processing architecture.
- Secure connectivity with built-in Gigabit Ethernet networking and secure IPsec and IPv6. A Linux PS driver offers additional support for Linux users.<sup>4)</sup>
- Trusted security—use advanced access controls via the embedded Web server; secure disk erase and the external hard disk accessory<sup>5)</sup> provide even more security.
- Do more with your printer with PostScript capabilities.<sup>4)</sup> And experience greater operating system support with original HP-GL/2 and RTL.
- Manage your printer fleet and costs with HP Web Jetadmin, embedded Web server and the HP accounting tool.

### ecoHIGHLIGHTS HP DESIGNJET T1200 PRINTER

- Save paper with two roll configuration, print image nesting, blank print area detection, image auto-rotate and realistic print previews
- Less ink wasted thanks to efficient installation and maintenance routines
- Free, convenient cartridge and printhead recycling<sup>6)</sup>
- Supports 100% recycled HP media
- ENERGY STAR<sup>®</sup> Qualified Product

# HP Designjet Z2100 Photo Printer series \$2,895.00/\$4,795.00

TECH 2000, INC.

For professionals who need to deliver stunning and compelling output that lasts, the HP Designjet Z2100 Photo Printer series delivers superior quality, durability and consistency. Count on HP for printing

## Impressive prints that last

Get vivid, long-lasting quality with HP Vivera pigment inks.

- **Output spectacular high-quality color photos, renderings and presentations.** HP 70 Vivera pigment inks with an 8-ink printing system achieve consistently outstanding image quality. The precisely placed 4 and 6 pl ink drops, along with resolution of 2400 dpi, highlight even the most intricate details.
- **Water-resistant prints resist fading.** Your photos, posters, presentations and maps will be water-resistant<sup>1</sup> and will resist fading for over 200 years<sup>2</sup> on a range of basic and specialty media.
- **The Three-black ink set (matte black, photo black and light gray).** Ensure true neutral tones and rich, deep blacks. You can even print on matte or glossy paper without having to waste time and ink exchanging cartridges.

## Breakthrough color

Achieve consistent and accurate color.

- **Expect superior and consistent color from print to print.** The first-ever embedded spectrophotometer with i1 color technology enables the printer to automatically generate custom ICC profiles for your preferred paper and calibrates the printer to deliver print-to-print and printer-to-printer repeatability.
- **Present projects on media that supports your vision.** Achieve consistent colors on a wide range of papers. Choose from over 30 new HP papers and other readily available media.

- **Fast color stability covers a broad gamut.** Output stable proofs in less than 5 minutes and with over 80% PANTONE<sup>®</sup> coverage,<sup>3</sup> including full compliance with prepress standards.
- **Glide effortlessly through color management and printing** with the HP Color Center tool.

## True print confidence

Print with greater confidence, thanks to dependable HP technologies.

- **Achieve flawless output every time.** To ensure dependable and consistent image quality every time, the drop-ejection performance of every nozzle is periodically and automatically tested with an Optical Drop Detector.
- **Eliminate trial and error with real-time layout and orientation preview.** Take the guesswork out of margins. Save time and materials.
- **Spend less time waiting.** The new and powerful internal processor uses 128 MB of standard memory and a 40 GB hard disk so that productivity is high, even for very complex prints. And thanks to HP Vivera pigment inks, the output dries instantly and can be used as soon as it has been printed.
- **Benefit from HP Services.** A number of complimentary services are provided to assist you during installation and throughout your printing workflow. For enhanced assistance, purchase from the extensive portfolio of service options available.

<sup>1</sup> Water resistance ratings tested by HP Image Permanence Lab on a range of HP media with Original HP 70 Vivera pigment inks. For details: [www.hp.com/go/supplies/printpermanence](http://www.hp.com/go/supplies/printpermanence)

<sup>2</sup> Display permanence rating by Wilhelm Imaging Research, Inc. on a range of HP creative and specialty media. For details: <http://www.hp.com/go/supplies/printpermanence>

<sup>3</sup> HP's preliminary, internal results have shown that the HP Designjet Z Photo Printer series is capable of successfully simulating over 80% of the PANTONE colors. HP Designjet Z2100 and Z3100 Photo Printers are pending PANTONE licensing

1. LCD front panel and direct access keys for ink supply maintenance and print message alerts
2. Front bypass slot accommodates media up to 24 in./610 mm wide (24-inch printer) or up to 44 in./1117 mm (44-inch printer)
3. Mounted on the carriage, the embedded spectrophotometer brings accurate profiling and precision color calibration
4. Rear USB 2.0 High Speed and 10/100 BT Ethernet connection for TCP/IP. Free slot for additional network connectivity with 1 EIO HP Jetdirect card
5. Rear bypass slot handles heavy and rigid media of weights up to 500 g/m<sup>2</sup> and thickness up to 0.8 mm
6. Roll feed (located at the back of the printer) feeds rolls up to 24 in./610 mm wide (for 24-inch printer) or up to 44 in./1117 mm (for 44-inch printer) and 300 ft/91 m long
7. Media bin
8. HP Vivera pigment ink set with 4 pl and 6 pl drop size for prints that resist fading for over 200 years

## Optional accessories

**HP-GL/2 Upgrade Kit.** For CAD customers that need improved line quality and network availability with the HP-GL/2 software key. The printer, rather than the computer, processes files for improved operating efficiency. Store and reprint files from the printer queue and print legacy HP-GL/2 files.

**The HP Advanced Profiling Solution**, powered by X-Rite technology, offers a color management system that works in combination with the spectrophotometer embedded in the printer. This automated solution enables you to perform: monitor profiling and calibration, ambient light and monitor-profile validation, RGB and CMYK profiling with optimized inkjet separations for HP Media in addition to the most common separations (Inkjet 260 and 400) and rigorous fine-tuning of printer color profiles. A very intuitive profile-editing wizard lets you match colors to various viewing conditions that use non-standard illuminants.

**Additional 24- and 44-inch spindles** make life easier for professional photographers and graphic designers, spare spindles mean that they can have different media types ready to load. Also available, for design professionals such as architects, engineers and GIS specialists, is an additional 44-inch spindle for easy switching between technical media rolls. This technical media spindle is recommended for use with Plain, Bright White Bond, Coated, Natural Tracing and Translucent Bond papers and Vellum.

**The Efi Designer Edition 5.1 XL for HP** is the recommended RIP and proofing application for your HP Designjet printer. Integrating this enables CMYK workflow support, PostScript® & PDF printing and accurate spot color management for designers, photographers and other creative professionals. A powerful, yet cost-effective digital proofing system that allows full control over digital proofing needs to speed up workflows, saving both time and money.

## Services

A number of standard services come in the printer box to enable you to print with confidence right from the start:

- **HP Start-up Kit:** Enables you to easily install the printer on your own. Includes: drivers for both Mac® and Windows®, multimedia training in how to operate the printer and PDF user manuals for easier consultation.
- **Online HP Knowledge Center:** Fit your printer into your workflow. Benefit from multimedia training sessions, step-by-step guides, access to relevant forums and blogs, contact details for HP support and information on the latest drivers and firmware.
- **HP Easy Printer Care (Windows) or Printer Utility (Mac):** This feature tells you how your printer is doing by sending you alerts on everything from job accounting to color control.

See [www.hp.com/go/graphic-arts](http://www.hp.com/go/graphic-arts) for full details on all services.

For enhanced services, purchase from the HP Professional Graphic Services portfolio, which includes:

- **HP Installation Care Pack Services:** Makes it easy to get your printer up and running in minimum time. Stand alone and network options available.
- **HP Color Expert Service powered by X-Rite Color Services:** Problems getting the right color from your printer? HP Vivera Pigment Inks

HP Media

HP Printhead

HP Embedded Spectrophotometer

## Key technologies

**HP Vivera pigment inks** offer outstanding image quality and fade resistance on a wide variety of photo and fine art media, along with water resistance on a range of HP creative and specialty media. HP's proprietary Electrostatic Encapsulation Technology optimizes the pigment chemistry and ink properties for stability and performance to ensure a broad color gamut, print permanence, excellent gloss uniformity and reliable, accurate and consistent printing.

**The HP embedded spectrophotometer with i1 Color Technology from X-Rite** is mounted on the printer carriage and revolutionizes professional color workflows by automating media profiling. It allows users to automatically generate custom RGB ICC profiles for their preferred media and provides accurate measurements for printer calibration that delivers print-to-print and printer-to-printer color consistency. Also, with the optional HP Advanced Profiling Solution, you can edit and modify existing profiles and create CMYK profiles.

**HP's 8-ink printing system** is made up of the exclusive HP Vivera pigment ink formulation technology with HP 70 Printheads, each printing two colors of ink with 1,056 nozzles per color and the HP Three-black ink set. Ensures exceptional color accuracy and consistency: a valuable tool for graphic designers and prepress professionals who need repeatable results. The HP Designjet Z series are also the first large-format printers to employ HP Scalable Printing Technology, providing superior reliability and optimized ink consumption.

**An extensive media portfolio:** HP offers a portfolio of 9 photo papers, 10 digital fine art papers, 3 proofing papers, 9 bond and coated papers and over 30 other HP media. All have been tested with HP 70 Vivera pigment inks to deliver consistent, museum-quality prints that withstand the demands of handling, display and storage expected of professional prints.

## High-quality creative prints, prepress proofs and technical images

### Proofing

- Have proofs approved in record time: colors stabilize in less than 5 minutes.
- Print consistent and accurate colors across a wide range of media, thanks to automated printer calibration and ICC profiling.

- Produce high-quality black-and-white proofs: The 8 HP Vivera pigment inks include three blacks that give excellent gray neutrality.

### Display graphics

- Print full-color, long-lasting posters, banners and displays on a wide range of media.
- Create persuasive marketing collateral, point-of-sales material and tradeshow displays with photo-quality images and consistent, accurate colors.

### Design

- Make an impact by presenting concepts in large format and with accurate colors right from the start of your project. The printer covers over 80% of PANTONE colors.
- Get consistent colors, print after print and from one printer to another, thanks to automated printer calibration.

### Technical presentations

- Produce impressive renderings and presentation panels with superior quality, consistency and durability.
- Three-black ink allows for greater realism in renderings with metal or stone.
- Images are smudge-resistant to minimize damage from repeated handling.

### Commercial photography

- Create neutral black and white prints. No need to waste ink when changing between matte and glossy papers: all three blacks are always on board.
- Produce consistent and accurate color photo proofs, thanks to the printer's built-in calibration technology and broad color gamut.
- Print on almost any media—the printer creates media profiles for you and you can use thick stock of up to 500 g/m<sup>2</sup>.

### Mapping

- Maps and satellite images show more detail and gradations thanks to small drop size and precise placement.
- Output resists fading and is water-resistant, so maps can be used in the field.
- Colors are consistent, so subtle differences can be seen and studied over time.

# HP Designjet Z3200 Photo Printer series \$3,395.00/\$4,695.00/\$6,155.00/\$7,475.00

This 12-ink HP Designjet, with new HP 73 Chromatic Red ink, delivers long-lasting gallery-quality prints in black and white and color. It enables easy calibration and profiling with its embedded spectrophotometer<sup>1</sup> and also delivers great ink efficiency<sup>2</sup>.

## Produce gallery-quality black-and-white and color prints

- Color and black-and-white print permanence of 200 years<sup>3</sup> on a range of HP and HP Hahnemühle papers.
- Beautiful black-and-white prints have smooth transitions, true neutral grays thanks to the HP Quad-black ink set.
- Get exceptional gloss uniformity and minimize bronzing on most glossy photo papers with HP Gloss Enhancer.<sup>4</sup>
- This printer's expanded color gamut achieves 95% PANTONE<sup>®</sup> coverage<sup>5</sup> enabled by its new chromatic red ink.
- Over 50 HP papers supported, from photo and fine art papers to coated and display-graphic printing materials.

The HP Designjet Z3200 Photo Printer series is ideal for professional photographers, digital fine artists, print service providers, graphic designers, and pre-press professionals who want to create:

- Gallery-quality prints
- Portraits
- Limited editions
- Albums
- Art reproductions
- Large-format designs
- Proofs

## Easily calibrate and profile with HP DreamColor Technologies

- Calibration and profiling are made simple with HP DreamColor Technologies and embedded spectrophotometer.<sup>1</sup>
- Expect consistent color from print to print regardless of fluctuating environmental conditions.
- Simplify workflows: easily access, create, and share paper presets<sup>6</sup> using the enhanced HP Color Center.
- Get questions answered with the HP Knowledge Center, and control color settings with Adobe<sup>®</sup> Photoshop<sup>®</sup>.<sup>7</sup>

## Achieve productive operation and great ink efficiency<sup>2</sup>

- Expect always-on quality with proactive automatic servicing routines that result in great ink efficiency.<sup>2</sup>
- Optical Drop Detector (ODD) prevents nozzle clogging—and, as a result, printing errors and media waste.
- Rich, dark blacks on matte and glossy papers—and you don't have to swap cartridges.
- This printer contains an HP Embedded Web Server, print previews, and other efficiency-enhancing features. Embedded TIFF, JPEG, and Adobe PS3/PDF RIP—enables direct job submission, queuing, nesting capabilities<sup>8</sup> for a more efficient operation so you save time and money.
- Preserve resources and your budget. Predictable, reliable printing leads to more efficient printing, which is good for your business and can reduce the impact of printing on the environment.

WHAT DO YOU HAVE TO SAY?

## Create leading gallery-quality black-and-white and color prints with the Vivera Color Ink System

### COLOR

- Excellent gloss uniformity and minimal bronzing on glossy and semi-glossy papers thanks to HP Gloss Enhancer

### B&W

- Composite grays are not truly neutral
- Metamerism
- Neutral grays
- True rich deep blacks

### NEW RED

- The new HP 73 Chromatic Red ink provides a wide color gamut that meets the needs of photographers, graphic artists, and pre-press professionals alike.

The color gamut chart above shows in detail the wider gamut of reds that the HP Designjet Z3200 Photo Printer (in solid) achieves in comparison to one of its competitors. HP Premium Instant-dry Gloss Photo Paper was used for the demonstration.

## Easy calibration and profiling

The Designjet Z3200's built-in X-Rite spectrophotometer and HP printer linearization and profiling software take the cost, effort, and guesswork out of printer color management. You are never more than a few mouse clicks and 20 minutes away from a professional ICC profile customized for your printer, paper, and environmental conditions. Custom HP profiles make the most of your Designjet's extended color gamut in reds, blues, and greens whether using matte fine art paper, satin or glossy photo paper, canvas, backlit film, or any of a wide range of other compatible substrates. Perfectly neutral black-and-white prints with extended tonal range, fine shadow detail, and continuous tone appearance are all unlocked by custom HP printer profiles.

Add the optional HP/X-Rite Advanced Profiling Solution (standard on PostScript® models) for additional flexibility and functionality such as monitor calibration and profiling, RGB and CMYK printer profiling, profile verification, and profile editing.<sup>8</sup>

## Simplify workflows—easily access, create, and share paper presets using the enhanced HP Color Center

An enhanced HP Color Center offers a single point of control for all color-related functions.

From there, you can download or easily create your own Paper Presets, and have the option of more control using advanced settings.

Visit [www.hp.com/go/Z3200/paperpresets](http://www.hp.com/go/Z3200/paperpresets) to find paper presets for HP and other commercially available media.

“Neutral grays and color accuracy are of the utmost importance to my clients. They are very aware of the progress that has been made in digital printing and know that I’m at the forefront of the market. Yet when they see the prints from the HP Designjet Z3200, they are astonished at the incredible quality.”

### HP Professional PANTONE Emulation

With 95% coverage of PANTONE colors, you can produce accurate spot-color proof prints for your design projects using the HP Designjet Z3200 PostScript printer.

- Assign PANTONE color names to graphical elements in your PS/PDF-capable design application, and have the printer automatically generate matching in-gamut colors and visually optimized equivalents for out-of-gamut colors, using a specific spot color rendering intent not available from standard ICC profiles\*.
- Automatically create your own PANTONE swatch book illustrating the closest available match to PANTONE colors for the print medium selected. The printed color swatch comes with a numerical indication of how closely colors match, and the included device color values make it easier to create customized emulations for applications that do not support named colors completely\*\*.

See [www.hp.com/go/Z3200/PANTONE](http://www.hp.com/go/Z3200/PANTONE) for detailed information about this printer's PANTONE coverage.

\* For HP Professional PANTONE Emulation to work correctly, design applications must allow the assignment of the correct color name to design elements, and the name must be preserved intact in the PostScript or PDF file passed to a supported RIP with embedded HP Professional PANTONE Emulation technology. Since ink values are calculated based on colorimetric information present in an ICC profile, a correct and up-to-date ICC profile is required for the specific printer, inks, and media being used.

\*\* These may be RGB or CMYK values, depending on your workflow.

## Footnotes

- Embedded in this HP Designjet Photo Printer is an i1 spectrophotometer from X-Rite. Close collaboration between HP and X-Rite ensures a reliable solution that's been thoroughly tested to meet customer demands for ease, quality, and dependability.
- Based on internal HP testing, the HP Designjet Z3200 Photo Printer series utilizes at least 30% less ink during routine maintenance operations versus select printers from other vendors.
- Image permanence estimates by HP Image Permanence Lab based on testing on a range of HP photo, fine art, and specialty papers: confirmation tests in progress at Wilhelm Imaging Research, Inc. For details, see [www.hp.com/go/supplies/printpermanence](http://www.hp.com/go/supplies/printpermanence).
- Bronzing is minimized as an image-quality issue when HP gloss enhancer is used. HP gloss enhancer can be used on photo paper, with the exception of matte-finish papers.
- 95% coverage of PANTONE MATCHING SYSTEM® and PANTONE Goe™ System, based on HP internal testing (PANTONE approval pending). Please visit [www.hp.com/go/Z3200/PANTONE](http://www.hp.com/go/Z3200/PANTONE) for final results.
- Visit [www.hp.com/go/Z3200/paperpresets](http://www.hp.com/go/Z3200/paperpresets) to find paper presets for HP and other commercially available media.
- Avoid double color management when using Adobe Photoshop CS3 Improved Printing Experience—co-developed by HP—for both Mac and Windows Vista. Check [www.hp.com/go/Z3200/solutions](http://www.hp.com/go/Z3200/solutions) for more details on the exact configurations supported.
- HP Professional PANTONE Emulation, HP Advanced Profiling Solution, remote management, queue management, nesting, job submission and storage capabilities, and support for 16-bit TIFF and JPEG files are standard on HP Designjet Z3200ps Photo printers only. HP Advanced Profiling Solution is also available as an accessory for HP Designjet Z3200 Photo Printers.

INKJET PRINTING with  
**LED SPEED** at BREAKTHROUGH TCO

**PRINT 4 D-SIZED PAGES/MIN, EXPERIENCE A LOW TCO**

Print jobs faster while keeping costs low with this proven production workhorse. It requires little-to-no maintenance versus LED printing, so it's ready when you are. Plus, it can run unattended, enabling you to focus on customers—not your printer.

- Enjoy high-speed, unattended printing.
- Radically simplify and speed up your entire workflow.
- Save time and expense—versus costly LED printing—with low-maintenance HP inkjet printing.
- Choose the configuration that best fits your printing needs today—and tomorrow.

**ONE PRINTER TO MEET YOUR MONO AND COLOR NEEDS<sup>1</sup>**

Get two printing systems—both mono and color—in one.<sup>1</sup> The versatile HP Designjet T7100 Printer series can produce low-cost CAD drawings and high-quality color documents.

- Produce monochrome CAD drawings for the same cost as your current LED prints—and even use laser paper.
- Impress customers with crisp, accurate renders, professional images on photo paper, and presentations.<sup>1</sup>
- Explore the broad HP printing materials portfolio—consistent, high-quality results save time and money.
- Load different media on 3 different rolls. HP makes it easier than ever to be flexible and versatile.

**SEAMLESSLY INTEGRATES WITH ANY IT ENVIRONMENT**

This printer fits seamlessly into any production environment, with built-in connectivity, security, and manageability tools. Plus, embedded job accounting makes it easy to track usage and manage costs.

- Rest assured, this printer is easy to integrate, manage, and secure.
- Print confidently, knowing this Designjet supports the next generation of mainstream applications and formats.
- Manage your printing costs more effectively with embedded job accounting functionality.

# DESIGNJET Z5200 PostScript® PRINTER \$5,495.00

Instant large-format printing

TECH 2000, INC.

## Easy and intuitive

With this printer you save half the steps needed to get a print<sup>1</sup>—so it's easier, and you're more productive. Take advantage of a printer that is so easy and intuitive, you'll wonder why you waited to bring large-format printing in house.

- Eliminate and automate many of the steps involved with traditional large-format printing. HP Instant Printing Pro streamlines the printing process from beginning to end with fast, easy file preparation and automatic nesting, preview, orientation, and crop marks.
- Achieve your desired colors quickly while minimizing unnecessary and expensive trial-and-error printing. This printer's embedded spectrophotometer enables automatic calibration and profiling for greater color accuracy and consistency.

## Quick printing

Save up to 5 minutes on every print. Add large-format printing to your offering without slowing down your workflow. Eliminate time-consuming steps, see fast speeds, and process and manage jobs more effectively with high productivity.

- Speed up the printing process by eliminating some of the time-consuming steps along the way. The HP Designjet Z5200 PostScript® Printer lets you submit many files at a time, directly to the printer, without having to wait to open an application.
- Turn around orders quickly and still deliver the high quality that customers demand. With the HP Designjet Z5200 PostScript® Printer and HP Vivera pigment inks, you can print up to 445 ft<sup>2</sup>/hr at production speed without sacrificing quality.

- Streamline your workflow to achieve greater productivity. The printer's 160 GB hard disk provides a large buffer, reducing the chance that your workstation will lock up when printing large files and simplifying the process when you need to reprint.
- Go to unattended printing with 300-ml HP cartridges. Take advantage of the HP Designjet Excel Accounting Report to track jobs by customer, job, or costs. Receive low supplies alerts and use convenient reordering enabled by technology built into HP supplies.<sup>1,2</sup>

## Any file format

Experience dependable, high-quality results on a range of applications, no matter the file format your customer brings. Get high-impact color that's delivered accurately and consistently. Gain efficient operation and a low TCO with this HP printing system.

- Count on a truly dependable printing experience with a built-in PostScript interpreter for in-printer processing of PS and PDF files. And with HP Professional PANTONE Emulation you can meet customer color expectations more quickly and reliably.
- Save time and money by minimizing trial and error printing. This printer's embedded spectrophotometer provides automatic calibration and media profiling for greater consistency and accuracy with the first and every print.
- Impress your customers with long-lasting, high-quality color and black-and-white prints.
- Optimize your everyday printing and achieve a new level of quality and value. HP Universal Bond Paper and HP Bright White Inkjet Paper feature ColorPRO Technology, providing visibly enhanced print quality and cost-effective everyday printing.

HP Designjet T2300 eMFP  
and ePrint&Share \$8,450.00/\$9,450.00

THE WORLD'S MOST  
COLLABORATIVE PRINTING  
SOLUTION.

HIT PRINT  
INTELLIGENTLY

# The WORLD'S MOST COLLABORATIVE

The first-ever Web-ready printing system with MFP benefits, the HP Designjet T2300 eMFP makes it easier than ever to perform effectively. Print drawings wherever the job takes you—in the office, with the client, at the site. Collaborate with partners and contractors with simplified sharing thanks to HP ePrint & Share. And focus more on your clients and drawings and less on printing with a device that is incredibly intuitive, simple to maintain, and easily upgradeable in the future.

## ACCESS AND PRINT ON THE GO—SCAN CONTENT TO THE WEB

Work with a printer that enables, rather than constrains, you. This printer does away with cables and drivers so you have greater freedom to print wherever and whenever it's most convenient—in the office, on the road, or at the client site.

- Instantly scan and upload content to the Web.<sup>1</sup>
- Print and share files over the Web—or directly from the touchscreen<sup>1</sup>—with HP ePrint & Share.
- Print directly from your USB thumb drive, no PC required.
- Print to any HP Designjet printer without installing multiple drivers with HP ePrint & Share.

## INSTANTLY SHARE AND MANAGE CONTENT WITH YOUR TEAMS

This printing system is designed to inspire and aid collaboration in and out of your office. Easily print, scan, and share drawings with your partners and clients. An integrated large-format scanner lets you capture and share ideas in real time.

- Scan sketches and hand-annotated drawings.
- Scan drawings to create print-ready files. Share them via an email link to your HP ePrint & Share.<sup>1</sup>
- Work on multiple projects at the same time with two rolls and smart switching.
- Keep the collaborative flow—with HP media and supplies, the print is right the first time, every time.

## SO EASY AND INTUITIVE, YOU'LL LOVE USING IT

The HP Designjet T2300 eMFP is so easy and intuitive that printing and scanning is virtually effortless. Its color touchscreen makes interacting with your printer a breeze. And direct printing eliminates print driver and network hassles.

- One-click print, scan, and copy.
- Create a print-ready .PDF at the same time you print with HP ePrint & Share.
- Preview your pages with an intuitive color touchscreen.
- Web-ready and easy to update.

# PRINTING SOLUTION

TECH 2000, INC.

## Sketch to SHARE

- Scan or copy hand annotations and sketches
- Take advantage of simple, **one-click** scanning options
- **Share sketches** by **scanning directly** to the cloud, an email address, or a USB drive

## Design, print and SHARE

- Create .PDFs, which are **automatically uploaded** to your personal Web library, at the same time you print
- **Share print-ready files** instantly with project partners

## IMPROVING WORKFLOWS with HP ePRINT & SHARE

Publishing documents today is time-consuming, and unreliable. With HP ePrint & Share, you can preview, create a pdf at the same time, print, access and share files—easily, cost-effectively, and reliably.

## Print from the ROAD

- **Print from the cloud** to any available Web-connected HP Designjet printer
- **Print without** installing multiple **drivers**
- **Print from a USB drive** directly from your printer
- **Easily re-print** project documents or sets

### See true-to-life print previews

- Get true-to-life print previews so you can see **exactly** what your printed page will look like.
- Your pages will look right the first time you print—saving you time and paper.

### Create and upload a print-ready .PDF—in just one click

- Automatically create a print-ready .PDF—and upload it to your personal Web library—the instant you hit print.
- You can then print and share your file from any Web-connected device.

### Share and manage print-ready files

- Share files by sending an email with a secure link to your personal Web library—no FTP or email attachments required.
- You can also use your personal Web library to manage all your print-ready content.

# DESIGNJET HD SCANNER \$18,995.00

TECH 2000, INC.

In-house scanning/copying at the touch of a button.

## Quickly transform originals into digital documents

Reduce turnaround times with in-house high-quality color copying/scanning. Increase productivity with enhanced scan and high processing speeds. Scan weathered and worn originals and see high quality results that look better than the original.

- See high speeds up to 3 in/sec for color and up to 10 in/sec for black-and-white scans.
- Take advantage of the HP Designjet Scanner's high processing speeds to make short work of large files.
- Powerful scan resolution—create images with realistic colors and precise lines that improve upon the original.
- Produce large-format color and black-and-white scans from wide or thick, rigid originals.

## Create an integrated HP scan-copy-print system

Add to your HP Designjet printer to build a powerful, easy-to-use, in-house scan-copy-print system. It integrates easily with numerous industry-leading third-party scan applications—enabling excellent copy quality and performance.

- Obtain consistent color reproduction with closed-loop color calibration.
- Integrate with the printer for excellent ease of use, copy quality, and performance\*.
- Integrate your entire HP production system using preconfigured drivers and network connectivity.
- Save scanned files in a variety of file formats, and easily integrate with third-party applications.

## Easily scan and copy at the touch of a button

Take advantage of the HP Designjet Scanner's easy-to-use, intuitive graphical display to produce great copy and scan results. Advanced copy features help you make copies quickly and effortlessly; seamless network connectivity allows easy access.

- Easy and intuitive operation with a 15-inch touchscreen graphical display.
- Use advanced copy features to streamline your job and help you make copies quickly and easily.
- Tap into seamless network connectivity for easy access.

\* Only valid for connection with the HP Designjet 4020/4520 Printer series.
